

# PRODUCT MAXPAGE LITE

## CHURCH PAGING SOLUTION

- EASY TO USE
- DISCREET CHURCH PAGING SYSTEM
- GIVE PARENTS PEACE OF MIND
- ELIMINATES NOISY OVERHEAD PAGING
- SUITABLE FOR ANY SIZED CHURCH

### EASY TO USE

MAXPage Lite is a compact, ready-to-use, desktop paging system that is easy to install and operate. Featuring a very familiar telephone style keypad and large backlit display, users simply key in the pager number and press send - it's that simple!

### DISCREET CHURCH PAGING SYSTEM

With the MAXPage Lite system you are able to discretely contact parents during church service. You have the choice to supply your parents with a variety of pagers, from standard clip on pagers to coaster pagers. The pagers are light-weight, small enough to fit into any pocket and come with a handy belt clip and chain - making them harder for parents to lose.

When a parent receives a message or an alert, the pagers can either light up or vibrate. This means that parents are alerted without disturbing other parishioners and interrupting the service.

### GIVE PARENTS PEACE OF MIND

Parents can enjoy church service with the knowledge that if there is an issue with their child they will be contacted immediately and discreetly.

### SUITABLE FOR ANY SIZED CHURCH

The extremely flexible MAXPage Lite paging system will suit the needs of churches of any size. With the ability to contact up to 1000 pagers from one unit, your church could combine several units, creating no limit on the number of parents you can contact.

### TECHNICAL SPECIFICATIONS

## RESTAURANT PAGING SOLUTION

-  **EASY TO USE**
-  **RELIABLE RESTAURANT PAGING SYSTEM**
-  **REDUCE CUSTOMER WAITING TIME**
-  **ELIMINATES NOISY OVERHEAD PAGING**
-  **REDUCE STAFF OVERHEADS**

### EASY TO USE

MAXPage Lite is a compact, ready-to-use, desktop paging system that is easy to install and operate. Featuring a very familiar telephone style keypad, users simply key in the coaster number and press send - it's that simple!

The backlit display provides message confirmation and ensures the user keys in the correct information every time - even in poorly lit environments.

### RELIABLE RESTAURANT PAGING SYSTEM

MAXPage Lite, combined with Commtech's Patron Pager, creates the easy solution to contacting your patrons. The Paging System suits all forms of restaurants, you can use it to allow people to wait for a table or even use the system to page customers when their order is ready to collect.

Each coaster is individually numbered, allowing you to simply press the corresponding pager number when you want to contact a particular customer.

### CONTACT STAFF DISCRETELY

MAXPage Lite can be also be used to contact staff directly. If staff members are wearing pagers, you are able to send predefined messages to staff - e.g. "Table 14 needs cleaning". This allows your front of house staff to have complete contact with floor staff without leaving the front counter.
